24. ADDITIONAL CREDITS(MARKS) FOR APPLICANTS WORKING ON CONTRACT/DAILY WAGES/AD-HOC BASIS IN THE UNIVERSITY OF DELHI OR ITS COLLEGES

Credits (Marks) on the following basis shall be added to the final merit list with respect to the candidates working on contract/daily wages/ad-hoc basis in the University or its Colleges.

- One mark for each completed year with a cap of a maximum of 10 marks.
- For giving marks, period of more than 6 months service (each month counted as having 30 days) or 181 days will be counted as one year while no credit will be given for service put in for 6 months, i.e., less than 180 days.
- In other words, the applicant would get a maximum of 10 marks, which would be added to their total score, even if she/he has put in service of more than 10 years of service.
- The extra credit given would, however, be capped so as not to exceed the maximum score

of the top scorer in the competitive examination for a particular post. In other words, the extra credit of 10 marks would be restricted, in case the total score of the candidate after adding the additional credits exceeds the highest score obtained by other competing candidates in the examination concerned.

- The applicants in this category will have to obtain minimum qualifying marks in both the papers or one paper, as applicable, under the existing scheme of recruitment. The credit for service already put in will be added to their score thus enhancing their position in the merit.
- No other benefits such as seniority based on service already rendered as contract/daily wages/ad-hoc basis, or enhanced pensionary benefits taking into account such service etc., will accrue to them.

The credit (marks) would be given to the applicants, who have served the University on contract/daily wages/ad-hoc basis without any break i.e. on continuous basis, for at least a continuous period of one year, without a gap ('gap' excludes the regular break of one working day before the renewal of contract of engagement of the concerned employee), on the date of notification of recruitment process for direct recruitment against the posts likely to be advertised by the University. Further, while computing period of continuous service beyond a period of one year, rendered as such, a onetime breakup of one month, calculated as 30 days, may be ignored while giving credit based on total number of years of service put in the University.

The scheme detailed above is explained with the help of following examples.

Example 1: An applicant concerned has rendered 10 years and 07 months (more than 180 days) of service, who scores 345 out of 500 in both the papers. (highest score is 410)

Accordingly, he will get an additional credit of 10 marks, and therefore the effective score in this case would be 355.

Example 2: An applicant concerned has put in 05 years and 07 months of service, who scores 345 out of 500 in both the papers. (highest score is 410)

Accordingly, he will get an additional credit of 06 marks, and therefore the effective score in this case would be 351.

Example 3: An applicant concerned has 05 years and 05 months (less than 180 days) of service, who scores 345 out of 500 in both the papers. (highest score is 410)

Accordingly, he will get an additional credit of 05 marks, and therefore the effective score in this case would be 350.

Example 4: An applicant concerned has 05 years and 07 months of service, who scores 406 out of 500 in both the papers. (highest score is 410)

Accordingly, he will get an additional credit of 06 marks, and therefore the effective score in this case should be 412. However, since the highest score is 410, this applicant's final score would be capped as 410.

Example 5: An applicant has rendered service in two tranches of two years and then for six years with a onetime gap of more than 30 days. The credit available under the scheme will be only six marks for continuous portion of service and no credit will be given for first two years.
